PRICE FOUR CENTS.

Open Meeting of Federation of Women's Clubs

The regular October open meeting of the Kingston Federation of Women's Clubs was held last Saturday afternoon in the chapel of the First Reformed Church. After a short business session the Federation presented a very delightful program as the hostess club of the afternoon.

Mrs. Edgar N. Palen, the president of the Federation, presided at the business session. The report of the treasurer showed \$238.82 in the general fund; \$32 in the public health fund; and \$51.45 in the lecture fund. There were but the briefest reports given by the clubs, both because they have only just begun their all meetings and in order to shorten the business program that more time might be given to the later program. The Monday Club did, however, announce that its customary course of eight lectures would begin on Monday, October 28, being held in the chapel of the First Reformed Church. The subject will be "Some Aspects of Modern Literature," and the lecturers will be Mr. Voorhees, Associate Professor of English Literature, and Dr. Bernard L. Bell, Varden of St. Stephen's College, Columbia University. Associate memberships could be secured, it was stated, from members of the Monday Club at any time now.

The Atharhatic Club gave its subject of study for the year, "Odd Corners of the World." Announcement was made of the coming home-talent presentation of "Adam and Eva" at the high school auditorium on the evening of October 30, by the School Women's Club, for the purpose of adding to their teachers' hospital fund which will, when operative, provide a little financial help toward hospital expenses which may be incurred by teachers in our public schools. Since this idea was inaugurated three teachers have been obliged to go to hospitals for treatment or operations.

Good Government Committee. The good government committee reminded the club women present of the request made of each club that two delegates be sent to the meetings of the common council which are held at the city hall on the first Tuesday evening in each month at 7:30 o'clock. The next such meeting will be on November 5. The women of the city were also urged to visit the city hall on the occasion of the fromal opening night.

The Tree Committee. The tree committee called attention to the account of the recent meeting of the joint committee at the Hasbrouck Avenue Playground to inspect and learn from our city officials of the possibilities of these 42 acres of land as a scenic park and tree nursery. Those present were also told that if at any time they or their friends or neighbors had any tree problems the men's tree committee would be only too glad to help them with such problems. By calling the federation members, or the chairman of the tree committee, Sidney K. Clapp, telephone 3373, the services of the tree committee will be theirs.

One new member was received into the federation, Mrs. Arthur Freitag, of this city.

Delegates Chosen. Delegates were chosen to represent the Kingston Federation, which as a part of the Third District is the hostess group of the State Federation Convention to be held in Albany on November 11 to 15, inclusive. The delegates will be the president, Mrs. Palen, Dr. Mary Gage-Day, Mrs. W. N. Fessenden and Mrs. Hewitt Boice. Only one alternate was chosen to attend these sessions on Saturday, Mrs. John N. Cordis, but the president was empowered to appoint three additional alternates, and any women of the federation who can go in such capacity are asked to communicate at once with Mrs. Palen.

Plano Recital. This brought the business session to a close and the meeting was then turned over to the Monday Club as hostess club. Mrs. William Lawton, president of the Monday Club, extended a cordial welcome to all present and said that the Monday Club felt it to be an honor to be able to present Mrs. J. Irving Wood, whom they could count indeed as a Kingston woman since this was her home before her marriage. Her friends both here and in New York city and elsewhere were proud of Mrs. Wood's success in her chosen field of music and Mrs. Lawton was sure that all present would greatly enjoy the piano recital and appreciation of Chopin which Mrs. Wood was about to give them. Mrs. Wood is both a gifted pianist and a woman of exceptional charm and gracious personality. In opening her "Appreciation of Chopin," Mrs. Wood called attention to the fact that October 17th was the anniversary of Chopin's death which occurred in 1849, so that the afternoon's program would be almost in the nature of an anniversary. In order that there might be an adequate understanding of the composer's life as well as of his music upon which she found an "Appreciation," Mrs. Wood gave in a pleasing conversational manner a considerable and intimate sketch of the life of this great musician who was pre-eminently the master of the piano.

The impressions of times and places and especially friends had a deep and lasting influence upon this

13,401 Voters Registered Here

That is the Total Registration in Kingston for the November Election—in 1928, 13,307 Registered and in 1927, 13,912.

The total registration for the four days in Kingston for the election in November is 13,401, or 511 less than the registration two years ago when Mayor Dempsey defeated Harry E. Schirrick for mayor. Last year's registration was 15,397, or 1,996 more than this year, but that was due to the fact that it was a Presidential year.

The total registration this year by wards for the four days follows:

First ward	754
Second ward, 1st dist.	719
2nd dist.	1,110
Third ward, 1st dist.	694
2nd dist.	853
Fourth ward, 1st dist.	535
2nd dist.	591
Fifth ward	688
Sixth ward, 1st dist.	425
2nd dist.	428
Seventh ward, 1st dist.	485
2nd dist.	460
Eighth ward	722
Ninth ward	802
Tenth ward, 1st dist.	606
2nd dist.	482
Eleventh ward	1,059
Twelfth ward, 1st dist.	936
2nd dist.	639
Thirteenth ward	323

More "Dry" Cases, Less Convictions

Washington, Oct. 21 (AP).—An increased total of prohibition cases instituted in the Federal courts and a decreased number of convictions for the fiscal year, which ended June 30, 1929, as compared with the year previous, are shown in statistics compiled by the Justice Department.

Cases instituted in 1929 totaled 110,655, of which 86,348 were criminal, an increase of 1,000. At the same time, there were 47,100 convictions, or 1,700 less than in 1928. The department, however, pointed out that \$7,476,300 was collected in fines in 1929, an increase of \$173,000.

Liquor cases, the report said, made up two-thirds of the criminal docket of the Federal District courts. The Southern District of New York showed the largest number of prohibition cases instituted, with 7,816; while the Eastern District of Kentucky was second with 2,945. The Northern District of New York next with 2,295 and the District of Columbia fourth with 1,651.

Aside from Alaska and Porto Rico, the smallest numbers of cases were in districts in Kansas, North Dakota, Vermont, and Utah. In some of these, however, there were no cases. Kansas, with 28 cases, exactly doubled her number for the previous year.

3 Youths Killed At Grade Crossing

Penn Yan, N. Y., Oct. 21 (AP).—Two boys and a girl were instantly killed in a Pennsylvania Railroad grade crossing accident in this village at 1:30 a. m. today.

They were Kenneth Parry, 17, and John Entz, 18, both of Seneca Castle, six miles west of Geneva, and Miss Helen Stanhope, 20, of Penn Yan. The crossing, with gates up, was temporarily unprotected when the light train carrying the three ran on the tracks in the path of a fast southbound train, according to Coroner William C. Halstead, who is holding an inquest.

The coroner said George Hazard, crossing tender, admitted he had left his post for a short time and was away at the time of the accident. T. S. Good of Elmira was the engineer.

Another girl who had been in the party was left at her home near the crossing a few minutes before the crash.

sensitive and poetic nature with its wealth of affection and its almost superabundant patriotism.

His music has been expressed through mediums peculiar to himself, and Mrs. Wood played admirably the Mazurka which was Chopin's first, written when he was but sixteen years of age. She also played two of his lovely waltzes, and in her comments made note of the quite remarkable fact that the musical modernists of today accept Chopin where they have discarded many of the other great musical masters. Later Mrs. Wood played other of the Mazurkas, which were never intended to be danced, but were rather impressions received while watching the Mazur dances. Another interesting fact noted was that Chopin's twenty-four Etudes offer in delightful form, a complete musical technical content.

Mrs. Wood closed her recital by playing some of the incomparably lovely preludes of this composer and with rarely understanding interpretation and fine technique, the masterly C-sharp Minor Scherzo.

Monday Club Meeting. After the Federation meeting the members of the Monday Club met at the home of Mrs. William M. Davis on Johnston avenue to meet Mrs. Wood, afternoon tea being served. Mrs. Lawton, president of the club, presided at the lovely tea table.

Vets Appreciate Generous Gifts

Approximately 300 Legionnaires, members of the auxiliary and citizens from Kingston, Saugerties, New Paltz, Poughkeepsie and Ellenville journeyed through the autumn sunshine and gorgeous foliage on a mission of friendly comradeship Sunday afternoon and visited the 450 disabled veterans, who are patients at the U. S. Veterans' Hospital at Castle Point. It was the second largest delegation ever to visit the hospital. Highland and Marlborough were the only Posts not represented either by delegations or gifts.

By Kingston Post drum corps, the entire delegation marched from the hospital entrance to the porch of the large administration and infirmary buildings. Every marcher had arms full of flowers. With the drum corps drawn up at attention, the visitors and ambulant patients gathered about the front entrance of the building, County Service Officer E. M. Smith, of Saugerties, first made a short but appropriate address, extending to the patients best wishes and cordial greetings.

He then presented to Harry Kerr, commander of the American Legion Post in the hospital, for distribution among those patients who are without funds, the heap of gifts from the Legion and people of Ulster county that were laid at his feet. He was so overcome that he could make no reply.

Approximately 275 cartons of cigarettes, together with pipe tobacco, candy, razor blades, magazines and matches were presented.

The drum corps was then drawn up for inspection. Captain Walter J. Miller and the commanders of the various service organizations at the hospital acting as inspectors. They pronounced the corps 100 per cent perfect and congratulated Captain Miller on their fine appearance. The Kingston boys then put on their famous drill and concert, which men fully clad, men in bathrobes, men in wheel chairs and men on crutches were all enjoyed and applauded.

Visitors were then conducted through the hospital buildings. The patients were loud in their praise for what the Legion had done and expressed their gratitude in no uncertain terms.

The American Legion wishes to thank heartily those who kindly sent in gifts. Several local factories took up collections and this money was used to purchase pipe tobacco. All cigarettes purchased by the Legion were bought from a dealer who furnished them at wholesale cost. The Legion also wishes to thank John J. Van Gonsle, of the Rip Van Winkle Bus line, for the use of the fine bus, and those who furnished private cars for transportation. It also thanks the Freeman for getting the visit publicity which resulted in so many gifts for these men at Castle Point who are still fighting the war 11 years after the armistice.

FIRST COMMUNITY DAY AT KERHONKSON HIGH SCHOOL. Kerhonkson, Oct. 21.—On October 16, Kerhonkson held its first Community Day at the high school.

The object of the gathering was to beautify and grade a part of the school grounds. Through the cooperation of the Board of Education, students and public spirited men who came with horses, trucks and tractors, the grading soon began to reveal what could be done if it were attempted. The planting of trees and shrubs was under the supervision of Professor Bushy of Cornell University. His presence was made possible by our local Home Bureau unit. Professor Bushy not only planned and planted, but in the afternoon he gave a very instructive talk to a good sized audience. The people of the village were fortunate in having a man like Professor Bushy to come to us with his knowledge, to beautify this center of interest, our high school grounds.

At noon the ladies of the Home Bureau kindly served a hot lunch to over 100 people. This was made possible by Howard Humiston erecting his tent for the ladies to work under, by the Reformed Church lending tables, silver and dishes and by Mrs. Arthur Fuller lending a stove. The committee of the Home Bureau extends its appreciation for all assistance rendered. Much credit in planning the day is due to Mrs. Humiston, our landscape leader, and to Mr. Munson, our principal, also the members of the Board of Education. Much credit is also due the men who worked hard all day and to the boys and girls who assisted them. That it was a great success, was the opinion of all.

Pilot and Mechanic Killed. Shreveport, La., Oct. 21 (AP).—John Broussard, 28, pilot of Oak Ridge, La., and T. M. ("Red") Cook, a mechanic of Pittsburgh, Texas, were killed yesterday in an airplane crash at the Shreveport airways. Their plane went into a tail spin 200 feet in the air and plunged to the ground where it burst into flames.

Big Passenger Plane Damaged. Havana, Oct. 21 (AP).—The airplane Buenos Aires, 20 passenger flying boat enroute from the United States to Buenos Aires, will be delayed here a week to ten days for repairs to its hull. The plane struck a snake in the Gulf Saturday while alighting just outside the harbor.

To Investigate Price Fixing. Washington, Oct. 21 (AP).—Investigation by the federal trade commission into an alleged combination of cotton seed crushers and oil mills to fix the price of cottonseed and cottonseed meal, was ordered today by the Senate.

Samuel M. Stone Buys Property On Ferry Street

From Central Hudson Steamboat Company—Brick Building Will Be Remodeled For Modern Gas Station and Auto Accessory Store.

Samuel M. Stone, who conducts an automobile accessory store and gasoline filling station at 22 Broadway, purchased the brick building and property on the west side of the old Skillypot ferry slip on Ferry street from the Central Hudson Steamboat Company this morning, with intentions of remodeling it into one of the most modern drive-in gas stations and auto accessory houses downtown.

For 10 years Mr. Stone has conducted his business at 22 Broadway, catering to customers who have grown to such large numbers that his present place of business is overtaxed. He is pressed for more room, which he will have when he removes to the Ferry street site, after the building has been remodeled.

The job of making the former Central Hudson building into one suitable for Mr. Stone's gasoline and accessory business will begin at once. He is anxious to remove to his newly-purchased property so that his customers may enjoy the best possible service. While the Ferry street building is undergoing improvements Mr. Stone will continue his business at 22 Broadway.

Fill In Ferry Slip. Louis Sturgeon, the dock builder, has a force of men busy today driving piles at the entrance to the old Skillypot ferry slip at the foot of Hasbrouck avenue. The slip will be filled in and the gas station built on the reclaimed ground.

The old slip for over a hundred years had been used by a ferry plying between Rondout and Sloatsburg, but with the building and opening of the Rondout Creek Bridge, traffic was diverted from the ferry to the new route. After operating for some time after the opening of the new bridge, the ferry was withdrawn from service.

Later the old Skillypot was purchased by John A. Fisher of Abel street, and it lies along the shore of the Rondout Creek opposite his place of business. Nearby lies what is left of the old Queen of the Hudson, the Mary Powell, which was purchased by Mr. Fisher and dismantled.

Dr. Graham at Kingston Hospital

The appointment of resident physician at the Kingston Hospital has been given to Dr. Roy W. Graham of Toronto, Canada. Dr. Graham comes to this city with a background of experience and training seldom found in a man taking the position of resident hospital doctor and the Kingston Hospital is fortunate in securing him.

He was educated at the University of Toronto, class of 1924, and graduated with the degree of Bachelor of Science (medicine) which is the form given in Canada. After four months' work in the Toronto General Hospital and nine months in the Christy Street Military Hospital of Toronto in the diabetic laboratory, he spent a year in the Victoria Hospital at London doing special nose and throat work part of the time. He then practiced over three years in Hamilton, Ontario. He has now decided to round out his surgical work by a year in the States. Kingston with its new and perfectly equipped institution appealed to him as a good field for such experience and he has taken the position here for one year.

Dr. Graham will live in the hospital being always on hand for emergency cases and will assist the surgeons in operative work as well as give supervising attention to all patients.

WOMAN INJURED AS TWO CARS CRASH SUNDAY.

Mamie Duffy of Haverstraw, sustained injuries to her leg when cars driven by Elmer Hopper of Beacon and Raymond Smith of Pearl street, collided Sunday afternoon at Franklin street and Clinton avenue. Both cars were somewhat damaged. The woman was removed to the Kingston Hospital. Her injuries are not considered serious.

CONGREGATION AGUDIS ACHIM ELECTS OFFICERS.

At the annual meeting of the Congregation Agudis Achim held Sunday evening the following officers were elected: President, Morris Lipkin; vice president, Abraham Bernman; secretary, Samuel Kline; treasurer, M. Miller and trustees, Louis Ginsburg, George Goldman, Samuel Lurie and Aura Stone.

FATHER AND SON DIE WHEN MONOPLANE CRASHES.

Pottstown, Pa., Oct. 21 (AP).—Luella M. Bush, 51, president of the Bush Planning Mill, Royersford, and his son, Guy Franklin Bush, 21, student pilot, were killed yesterday when their new monoplane crashed 300 feet shortly after taking off.

Killed in First Parachute Jump. Bellingham, Wash., Oct. 21 (AP).—Ed Mills, a contractor, was killed yesterday when he jumped from a plane with a parachute which failed to open. It was Mills' first attempt at parachute jumping.

Calendar in Supreme Court

When Supreme Court convened this afternoon with Judge Pierce H. Russell presiding, the following calendar was in order:

Case No. 374, Elton J. Tompkins against Henry Meyer, issue of fact, property damage, and money judgment.

Cases No. 426, 427 and 428, Lucie Herchenroder, Lydia O'Connor and Helen Klag against Elton J. Tompkins, action for personal injuries.

Case No. 372, Irene M. Williamson against Elton J. Tompkins and another, issue of fact, negligence.

Case No. 388, Charlie Ferro against Augustus Schneider and another, issue of fact.

Case No. 387, Samuel Avnet against Picardo G. Amador, issue of fact, negligence.

Case No. 121, James W. Feeter against Consolidated Products Company, action for goods had and delivered.

Case No. 123, Josephine Voyenski against Ignatius J. Bilaygo, issue of fact.

Case No. 40, Biagio Trapani, by guardian, against Fred Fisher, action for personal injury.

Case No. 41, Benvenuto Trapani against Fred Fisher, action for loss of services.

Case No. 393, Sam Weinstein against Abraham Rosenberg, action on contract.

Case No. 168, Charles Vincent against James Tinnie, issue of fact.

Case No. 172, Horace Elliott, Jr. against Uriah P. Decker, issue of fact.

TRAFFIC BLOCKED AS RAZORS FLASH AT CHURCH MEETING.

Evansville, Ill., Oct. 21 (AP).—The internal troubles of the Mount Zion Baptist Church (colored) reached the razor stage yesterday. Three deacons were seriously injured. One, Samuel Sanders, was slashed across the neck and may die. Twenty members of the congregation were cut and bruised.

Three persons were arrested, including the pastor, the Rev. G. A. Long, and Simon Matthews and Alex. Cobin, deacons. Should the wounded Saunders die, police said charges of murder would be made against the three.

For a year there has been trouble between one faction of the church and the pastor. Yesterday's meeting was under a court order which called upon the church to hold an election before November 4 to determine whether Long should continue as a pastor.

Chairs were used as clubs and projectiles. Razors flashed.

Five squads of policemen were required to break up the battle, which spread to the church yard and blocked traffic as motorists stopped to watch the fight.

POINCARÉ UNDERGOES SECOND OPERATION.

Paris, Oct. 21 (AP).—Raymond Poincaré, former French President and Premier, underwent an operation for a pelvis disorder today, the second he had had in recent months for his trouble.

M. Poincaré's physicians issued the following bulletin: "The second operation on President Poincaré was performed this morning under good conditions by Dr. Marin, with the assistance of Drs. Gosset, Voivin, and Perard."

The former premier was in the best of spirits when he was taken to the operating room. He laughed as he told his doctors he did not want all the bedside details of illness broadcast.

"I don't want the newspapers discussing the color of my pajamas, or the form of my bedsocks," he told them.

The first visitor to inquire the results of the operation and inscribe his name in the new visitor's book was Aristide Briand, who followed M. Poincaré as head of the French government. Other members of the government and notables came after him.

ITALIAN CROWN PRINCE TO WED BELGIAN PRINCESS.

Brussels, Belgium, Oct. 21 (AP).—Crown Prince Humbert of Italy is expected in Brussels on Wednesday with the object of obtaining the consent of King Albert and Queen Elizabeth to marry Princess Marie Jose. On Sunday the Italian ambassador, in behalf of the prince, sent a bouquet to Marie Jose, at the same time announcing the prince's coming visit. A great reception has been planned at the Royal Palace in Brussels to celebrate the betrothal which probably will be formally announced on Thursday, the anniversary of the wedding of the King and Queen of Italy.

Want More Pay and More Work. Chicago, Oct. 21 (AP).—Street cleaners and garbage collectors were on strike today, contending their pay was too small and that they were not given enough work. Realizing the menace to the city's health, efforts were being made at conciliation today to effect an immediate settlement.

Killed When Auto Strikes Pole. Geneva, N. Y., Oct. 21 (AP).—Flory Adams, 20, of Phelps, was killed and three other persons were injured as an automobile in which they were passengers left the highway and was wrecked against a telephone pole in the Phelps-Waterloo highway yesterday.

Giant Dornier Plane Carries 160 At Dearborn for Tribute to Edison

Altaheim, Switzerland, Oct. 21 (AP).—Do-X, huge 12-engined flying boat which was launched here last July, today made an amazing one-hour flight with a human load of 160 persons, the first time in the history of aviation that so many persons have been carried into the air on any conveyance.

The giant Dornier plane flew over Lake Constance, her motors working faultlessly, and landed with her 51-ton load without a hitch.

Do-X carried 150 passengers and a crew of ten. She had made previous test flights but this was the first time that so great a load was taken up.

The flying boat, which may be used for a trans-Atlantic crossing for the purpose of trying out her capacities, was built in the greatest secrecy.

She was designed to carry forty passengers normally but has accommodation for 100 if necessary. Her twelve engines can develop 6,000 horsepower and each engine can be treated individually without affecting its neighbors.

Do-X measures 150 feet from tip to tail. Her wings are 10 feet thick and 150 feet from wing tip to wing tip. Six great turrets project from each wing and each turret is equipped with two engines of 500 horsepower. The turrets are manned by mechanics who can walk along a passage on the inside of the wings from one turret to another.

Heading the group of notables to come to do honor to Edison, Mr. Hoover, who was to be the guest of Henry Ford, was planning also to make a public appearance in Detroit.

The President will be the principal speaker at a dinner tonight formally dedicating the new Edison Institute of Technology in the historical village. The President's address as well as the remarks of several others will be broadcast over the latest radio hookup ever attempted.

Although the ceremonies formally celebrated Edison's perfection of the incandescent lamp, the celebration actually was a huge "party" arranged by Mr. Ford for his friend, "Tom" Edison. Seemingly no item of expense or effort had been spared by Ford to make the "party" a complete success in every detail. Estimates of the cost of the celebration run as high as \$2,800,000, virtually all of which will be met by Mr. Ford.

In his effort to achieve as much realism as possible in reproducing conditions that existed 50 years ago, when Edison was working on the incandescent lamp, Mr. Ford even had earth from New Jersey shipped to the historical village to surround the original Edison laboratory, already part of the group of historical structures making up the community, "Henry's town," the New Jersey clay here. Edison remarked yesterday during a stroll about the village.

Six Hundred Invited to Dinner. Some 600 guests have been invited to the dinner tonight.

As an added feature of the ceremonies tonight, Mr. Edison, after returning from the laboratory where he will re-enact the perfection of the lamp, will touch a button that will light a large beacon in East Orange, N. J.

The beacon is to stand as a perpetual monument to himself on the original site of the laboratory where the incandescent lamp was born. The beacon is a tribute to Edison by the Edison pioneers who worked with him in the early days.

The beacon is an enormous bulb 17 feet high, inside of which are 600 incandescent lamps.

Among the noted guests who have accepted invitations to the ceremonies are Madame Marie Curie, co-discoverer of radium; Orville Wright, Owen D. Young, who will be toastmaster at the dinner; Charles G. Dawes, ambassador to Great Britain; Charles M. Schwab, iron master; John D. Rockefeller, Jr.; Dr. William Mayo, James W. Good, secretary of war; Adolph E. Ochs, publisher of the New York Times; J. P. E. Crowley, president of the New York Central railroad; General W. W. Atterbury, president of the Pennsylvania railroad; L. F. Loree, president of the Delaware and Hudson, and Daniel Willard, president of the Baltimore and Ohio.

After a parade through downtown Detroit, President Hoover will return to the Ford home for luncheon and will be present at the return this afternoon of the airplane completing the national air tour at the Ford airport.

Labor Leaders Found Guilty

Charlotte, N. C., Oct. 21 (AP).—The seven Gastonia labor leaders and union men accused of second degree murder for the killing of O. F. Aderholt, chief of police of Gastonia, were found guilty in Mecklenburg superior court here today.

The men convicted were: Fred Erwin Beal, Lawrence, Mass., formerly southern organizer for the National Textile Workers' Union; Clarence Miller, New York, communist educator; George Carter, Mizpah, N. J., union member.

Joseph Harrison, Passaic, N. J., union organizer, and W. M. McGinnis, K. Y. Hendrick and Louis McLaughlin, Gastonia, union members. The verdict carries a sentence of from 2 to 39 years in prison, within the discretion of the judge.

REED AND ROBINSON DELEGATES TO ARMS PARLEY.

Washington, Oct. 21 (AP).—Secretary Stimson announced today on behalf of President Hoover that Senators Reed of Pennsylvania and Robinson of Arkansas have accepted posts as members of the American delegation to the London arms parley in January.

The secretary said Chairman Borah, of the Senate foreign relations committee, had been asked by President Hoover to serve on the American commission but had found it impossible to accept.

In Police Court. Elizabeth Williams, a negress of 31 Sycamore street, arrested for public intoxication Saturday, was fined \$5 in police court today. William Stanton of Yonkers, arrested for public intoxication on Washington avenue on Sunday, was fined \$5.

John McCordie of 57 Foxhall avenue, arrested charged with disorderly conduct, had his hearing adjourned to October 31.

Senate Honors Edison. Washington, Oct. 21 (AP).—Adopting a resolution of tribute to his genius, the Senate joined today with Michigan in honoring Thomas A. Edison. The measure, introduced by Senator Vandenberg, Republican of Michigan, acclaimed the inventor as "a beloved patriarch whose brilliant achievements are a benediction upon the human race."

President Hoover Tribute to Edison

Celebration a Huge "Party" Arranged by Ford for His Friend "Tom" May Cost \$2,800,000—Clay From New Jersey for Historical Village.

Detroit, Oct. 21 (AP).—Come to join in the tribute to Thomas A. Edison on the fifth anniversary of the perfection of the incandescent light. President Hoover arrived at Dearborn, the Henry Ford estate near here, at 9:28 o'clock this morning.

The drizzle of rain that began before dawn continued.

At Dearborn the presidential party was transferred from the capital special to a train of the style of 1873, drawn by a wood-burning locomotive. Aboard this train the President and his party were taken to the historical village to be greeted at a quaint old railroad station by Henry Ford and Mr. Edison and their parties.

Heading the group of notables to come to do honor to Edison, Mr. Hoover, who was to be the guest of Henry Ford, was planning also to make a public appearance in Detroit.

The President will be the principal speaker at a dinner tonight formally dedicating the new Edison Institute of Technology in the historical village. The President's address as well as the remarks of several others will be broadcast over the latest radio hookup ever attempted.

Although the ceremonies formally celebrated Edison's perfection of the incandescent lamp, the celebration actually was a huge "party" arranged by Mr. Ford for his friend, "Tom" Edison. Seemingly no item of expense or effort had been spared by Ford to make the "party" a complete success in every detail. Estimates of the cost of the celebration run as high as \$2,800,000, virtually all of which will be met by Mr. Ford.

In his effort to achieve as much realism as possible in reproducing conditions that existed 50 years ago, when Edison was working on the incandescent lamp, Mr. Ford even had earth from New Jersey shipped to the historical village to surround the original Edison laboratory, already part of the group of historical structures making up the community, "Henry's town," the New Jersey clay here. Edison remarked yesterday during a stroll about the village.

Six Hundred Invited to Dinner. Some 600 guests have been invited to the dinner tonight.

As an added feature of the ceremonies tonight, Mr. Edison, after returning from the laboratory where he will re-enact the perfection of the lamp, will touch a button that will light a large beacon in East Orange, N. J.

The beacon is to stand as a perpetual monument to himself on the original site of the laboratory where the incandescent lamp was born. The beacon is a tribute to Edison by the Edison pioneers who worked with him in the early days.

The beacon is an enormous bulb 17 feet high, inside of which are 600 incandescent lamps.

Open Meeting of Federation of Women's Clubs

The regular October open meeting of the Kingston Federation of Women's Clubs was held last Saturday afternoon in the chapel of the First Reformed Church. After a short business session the club presented a very delectable program as the hostess club for the afternoon.

Mrs. Edgar N. Palen, the president of the Federation, presided at the business session. The report of the treasurer showed \$238.52 in the general fund; \$32 in the public health fund; and \$51.45 in the lecture fund. The last open meeting in May. There were but the briefest remarks given by the clubs, both because they have only just begun their meetings and in order to shorten the business program that more time might be given to the later program. The Monday Club did, however, announce that its customary course of eight lectures would begin on Monday, October 28, being held in the chapel of the First Reformed church. The subject will be "Some Aspects of Modern Literature," and the lectures will be by Mr. Voorhees, associate Professor of English Literature, and Dr. Bernard I. Bell, of St. Stephen's College, Columbia University. Associate memberships could be secured, it was stated, from members of the Monday Club at any time now.

The Atharhaction Club gave its subject of study for the year, "Old Town of the World." Announcement was made of the coming home-coming presentation of Adam and Eva at the high school auditorium on the evening of October 30, by the School Women's Club for the purpose of adding to the school's hospital fund which will then operate, provide a little financial help toward hospital expenses which may be incurred by teachers in our public schools. Since the sea was inaugurated three teachers have been obliged to go to hospital for treatment or operations.

Good Government Committee. The good government committee reminded the club women present of the request made of each club that delegates be sent to the meeting of the common council which is held at the city hall on the first Tuesday evening in each month at 8:30 o'clock. The next such meeting will be on November 5. The women of the city were also urged to visit the city hall on the occasion of the formal opening night.

The Tree Committee. The tree committee called attention to the account of the recent meeting of the joint committees of the Hasbrouck Avenue Playgroup to inspect and learn from our officials of the possibilities of the 12 acres of land as a scenic park or nursery. Those present were also told that if at any time they or their friends or neighbors had problems the men's tree committee would be only too glad to help them with such problems. Calling the federation members, the chairman of the tree committee, Sidney K. Clapp, telephone 3373, services of the tree committee be theirs.

One new member was received to the federation, Mrs. Arthur P. Cook of this city.

Delegates Chosen. Delegates were chosen to represent the Kingston Federation, which as a part of the Third District is the hostess group of the State Federation Convention to be held in Albany on November 11 to 13, inclusive. The delegates will be the president, Mrs. Palen, Dr. Mary Gage, Mrs. W. V. N. Fessenden and Mrs. Hewitt Boice. Only one alternate was chosen to attend these sessions on Saturday, Mrs. John N. Cordis, but the president was empowered to appoint three additional alternates, and any women of the federation who can go in such capacity are asked to communicate at once with Mrs. Palen.

Piano Recital. This brought the business session to a close and the meeting was then turned over to the Monday Club as hostess club. Mrs. William Lawton, president of the Monday Club, extended a cordial welcome to all present and said that the Monday Club felt it to be an honor to be able to present Mrs. J. Irving Wood, whom they could count indeed as a Kingston woman since this was her home before her marriage. Her friends both here and in New York city and elsewhere were proud of Mrs. Wood's success in her chosen field of music and Mrs. Lawton was sure that all present would greatly enjoy the piano recital and appreciation of Chopin which Mrs. Wood was about to give them. Mrs. Wood is both a gifted pianist and a woman of exceptional charm and gracious personality. In opening her "Appreciation of Chopin," Mrs. Wood called attention to the fact that October 17th was the anniversary of Chopin's death which occurred in 1849, so that the afternoon's program would be almost in the nature of an anniversary. In order that there might be an adequate understanding of the composer's life as well as of his music upon which to found an "Appreciation," Mrs. Wood gave in a pleasingly conversational manner a considerable and intimate sketch of the life of this great musician who was pre-eminently the master of the piano.

The impressions of times and places and especially friends had a deep and lasting influence upon this

13,401 Voters Registered Here

That is the Total Registration in Kingston for the November Election—in 1928, 13,307 Registered and in 1927, 13,912.

The total registration for the four days in Kingston for the election in November is 13,401, or 511 less than the registration two years ago when Mayor Dempsey defeated Harry E. Schirick for mayor. Last year's registration was 15,397, or 1,996 more than this year, but that was due to the fact that it was a Presidential year.

The total registration this year by wards for the four days follows:

First ward	754
Second ward, 1st dist.	719
2nd dist.	1,110
Third ward, 1st dist.	594
2nd dist.	583
Fourth ward, 1st dist.	538
2nd dist.	591
Fifth ward	683
Sixth ward, 1st dist.	425
2nd dist.	428
Seventh ward, 1st dist.	465
2nd dist.	466
Eighth ward	723
Ninth ward	723

Vets Appreciate Generous Gifts

Approximately 200 Legionnaires, members of the auxiliary and citizens from Kingston, Saugerties, New Paltz, Phoenixia and Ellenville journeyed through the autumn sunshine and gorgeous foliage on a mission of friendly comradeship Sunday afternoon and visited the 450 disabled veterans, who are patients at the U. S. Veterans' Hospital at Castle Point. It was the second largest delegation ever to visit the hospital. Highland and Marlborough were the only Posts not represented either by delegations or gifts.

Led by Kingston Post drum corps, the entire delegation marched from the hospital entrance to the porch of the large administration and infirmary buildings. Every marcher had arms full of flowers, etc. With the drum corps drawn up at attention, the visitors and ambulant patients gathered about the front entrance of the building, County Service Officer E. M. Smith, of Saugerties, made a short but appropriate address, extending to the patients best wishes and cordial greetings.

Samuel M. Stone Buys Property On Ferry Street

From Central Hudson Steamboat Company—Brick Building Will Be Remodeled For Modern Gas Station and Auto Accessory Store.

Samuel M. Stone, who conducts an automobile accessory store and gasoline filling station at 22 Broadway, purchased the brick building and property on the west side of the old Skillypot ferry slip on Ferry street from the Central Hudson Steamboat Company this morning, with intentions of remodeling it into one of the most modern drive-in gas stations and auto accessory houses downtown.

For 10 years Mr. Stone has conducted his business at 22 Broadway, catering to customers who have grown to such large numbers that his present place of business is overtaxed. He is pressed for more room, which he will have when he removes to the Ferry street site, after the building has been remodeled.

Calendar in Supreme Court

When Supreme Court convened this afternoon with Judge Pierce as president, the following calendar was in order:

Case No. 374, Elton J. Tompkins against Henry Meyer, issue of fact, property damage, and money judgment.

Cases No. 425, 427 and 428, Lucie Herchenroder, Lydia O'Connor and Helen Klag against Elsie M. Roemer, action for personal injuries.

Case No. 372, Irene M. Williamson against Elton J. Tompkins and another, issue of fact, negligence.

Case No. 388, Charlie Ferro against Augustus Schneider and another, issue of fact.

Case No. 387, Samuel Avnet against Picardo G. Amador, issue of fact, negligence.

Case No. 121, James W. Feeter against Consolidated Products Company, action for goods had and delivered.

Case No. 123, Josephine Vorenski against Ignatius J. Blaygon, issue of fact.

Case No. 40, Blago Trapani, by guardian, against Fred Fisher, action for personal injury.

Case No. 41, Rosetta Trapani, by guardian, against Fred Fisher, action for personal injury.

Case No. 42, Rosetta Trapani, by guardian, against Fred Fisher, action for personal injury.

Case No. 43, Rosetta Trapani, by guardian, against Fred Fisher, action for personal injury.

Case No. 44, Rosetta Trapani, by guardian, against Fred Fisher, action for personal injury.

Case No. 45, Rosetta Trapani, by guardian, against Fred Fisher, action for personal injury.

Case No. 46, Rosetta Trapani, by guardian, against Fred Fisher, action for personal injury.

Case No. 47, Rosetta Trapani, by guardian, against Fred Fisher, action for personal injury.

Case No. 48, Rosetta Trapani, by guardian, against Fred Fisher, action for personal injury.

Case No. 49, Rosetta Trapani, by guardian, against Fred Fisher, action for personal injury.

Giant Dornier Plane Carries 160

Altenrhein, Switzerland, Oct. 21 (AP)—Do-X, huge 12-engined flying boat which was launched here last July, today made an amazing one-hour flight with a human load of 160 persons, the first time in the history of aviation that so many persons have been carried into the air on any conveyance.

The giant Dornier plane flew over Lake Constance, her motors working faultlessly, and landed with her 160-ton load without a hitch.

Do-X carried 150 passengers and a crew of ten. She had made previous test flights but this was the first time that so great a load was taken up.

The flying boat, which may be used for a trans-Atlantic crossing for the purpose of trying out her capacities, was built in the greatest secrecy.

She was designed to carry forty passengers normally but has accommodations for 100 if necessary. Her twelve engines can develop 6,000 horsepower and each engine can be treated individually without affecting its neighbors.

Do-X measures 150 feet from tip to tail. Her wings are 10 feet thick and 150 feet from wing tip to wing tip. Six great turrets project from

her sides, each turret is 500 inches in diameter and each turret is 10 feet thick.

Some 600 guests have been invited to the dinner tonight.

As an added feature of the ceremonies tonight, Mr. Edison, after returning from the laboratory where he will re-enact the perfection of the lamp, will touch a button that will light a large beacon in East Orange, N. J.

The beacon is to stand as a perpetual monument to himself on the original site of the laboratory where the incandescent lamp was born. The beacon is a tribute to Edison by the Edison pioneers who worked with him in the early days.

The beacon is an enormous bulb 17 feet high, inside of which are 600 incandescent lamps.

Among the noted guests who have accepted invitations to the ceremonies are Madame Marie Curie, co-discoverer of radium; Orville Wright, Owen D. Young, who will be toastmaster at the dinner; Charles G. Dawes, ambassador to Great Britain; Charles M. Schwab, iron master; John D. Rockefeller, Jr.; Dr. William Mayo, James W. Good, secretary of war; Adolph E. Ochs, publisher of the New York Times; P. E. Crowley, president of the New York Central railroad; General W. W. Atterbury, president of the Pennsylvania railroad; L. F. Loree, president of the Delaware and Hudson; and Daniel Willard, president of the Baltimore and Ohio.

After a parade through downtown Detroit, President Hoover will return to the Ford home for luncheon and will be present at the return this afternoon of the airplane completing the national air tour at the Ford airport.

ESCAPE FROM PLANE JUST BEFORE GAS TANKS EXPLODE. London, Oct. 21 (AP)—A dispatch to the Daily Express from Brussels today said a Roman Catholic priest, flying from Antwerp to Ghent, Saturday, pronounced absolution for the dying on behalf of his eleven fellow passengers when the plane's carburetor took fire.

The eleven, believing they were doomed, besought absolution of the priest; he readily complied.

While he recited the solemn words the pilot carried on in growing peril and finally landed his plane safely. The passengers were safely clear of it when the gasoline tanks exploded and the machine was destroyed.

Knocked Down by Auto and Killed. Bath, N. Y., Oct. 21 (AP)—Miss Lena Thorpe, 54, of this village, died today of injuries received when she was knocked down by an automobile while crossing the street near her home last night.

President Hoover At Dearborn for Tribute to Edison

Celebration a Huge "Party" Arranged by Ford for His Friend "Tom" May Cost \$2,800,000—Clay From New Jersey for Historical Village.

Detroit, Oct. 21 (AP)—Coming to join in the tribute to Thomas A. Edison on the 45th anniversary of the perfection of the incandescent light, President Hoover arrived at Dearborn, the Henry Ford estate near here, at 9:25 o'clock this morning.

The drizzle of rain that began before dawn continued.

At Dearborn the presidential party was transferred from the capital special to a train of the style of 1870, drawn by a wood-burning locomotive. Aboard this train the President and his party were taken to the historical village to be greeted at a quaint old railroad station by Henry Ford and Mr. Edison and their parties.

Heading the group of notables come to do honor to Edison, Mr. Hoover, who was to be the guest of Henry Ford, was planning also to make a public appearance in Detroit. The President will be the principal speaker at a dinner tonight formally dedicating the new Edison Institute of Technology in the historical village. The President's address as well as the remarks of several others will be broadcast over the largest radio hookup ever attempted.

Although the ceremonies formally celebrated Edison's perfection of the incandescent lamp, the celebration actually was a huge "party" arranged by Mr. Ford for his friend, "Tom" Edison. Seemingly no item of expense or effort had been spared by Ford to make the "party" a complete success in every detail. Estimates of the cost of the celebration run as high as \$2,800,000, virtually all of which will be met by Mr. Ford.

In his effort to achieve as much realism as possible in reproducing conditions that existed 50 years ago, when Edison was working on the incandescent lamp, Mr. Ford even had earth from New Jersey shipped to the historical village to surround the original Edison laboratory, already part of the group of historical structures making up the community, "Henry's even got the New Jersey clay here," Edison remarked yesterday during a stroll about the village.

Six Hundred Invited to Dinner. Some 600 guests have been invited to the dinner tonight.

As an added feature of the ceremonies tonight, Mr. Edison, after returning from the laboratory where he will re-enact the perfection of the lamp, will touch a button that will light a large beacon in East Orange, N. J.
